Lena Bergström

LENA BERGSTRÖM

Lena Bergström is one of Sweden's most award-winning and productive designers. Art glass, utility glass, lighting, textiles, jewellery and public artworks. Nothing seems impossible for Lena. In her art glass Lena's fascination with cut crystal is clearly visible. Together with the skilled glass-blowers and mastercutters at Kosta Boda she is constantly challenging the limits of the glass.

"The unique properties of the glass and the craftsmanship of the glassworkers always inspires me to great deeds but at the same time I want the end result to look natural and beautiful."

PLANETS

The first Planets in Lena Bergströms universe were created in 2001. Over the years new Planets has been added in various colours and shapes depending on the season and theme.

The Planets are the result of a long-time collaboration between Lena and the skilled glassblowers and master-cutters at Kosta Boda in Sweden.

"I want each Planet to be unique and beautiful. Like us humans. We all come from one egg with different content and then we are cut into different characters. We become our own small planets. "

B. Vallien

BERTIL VALLIEN

"I like working with themes. They're like maxims that might be used to set off a whole chain of events. Glass offers opportunities like no other material. It has everything. It has an inner power of suggestion; it has light, heat and cold. Interior depths have always appealed to me more than the outer surface. For me, the blowing room is the centre of everything. It's like ladling matter out of a volcano and watching the glowing lava turn to ice. Knowing the exact moment at which to capture a shift of light or expression and wrench the secret from the glass is what it's all about."

Bertil Vallien has since 1963 worked at Kosta Glassworks and made himself world famous both as a designer and glass artist. He is internationally renowned, holds several design and art awards, and his work is represented in the most prestigious museums around the world.

Anna Ehrner

ANNA EHRNER

“For me, creativity takes place in the blowing room. This is where glass is conceived, where it is fashioned and comes alive. I want to work with the glass, not against it. In my designs, I try to follow along with the melt, with the sheer power of the glass, although I try at the same time to identify the simple and the subtle.”

Anna Ehrner is experimental and stylistic in her expression. Her work is characterised by minimalistic yet powerful design language.

ÅSA JUNGNELIUS

"Never stop searching. Keep on creating, conquering and discovering. Capture every moment. Otherwise it won't exist. Share your encounter. Share the passion. Pleasure is there. Everywhere. And nowhere."

"My first aim is to create glass that tells a story. Then I use aesthetics as a way of depicting the objective world in my own subjective manner. Often, I use stereo-typical artefacts as a model or reference in order to highlight or destroy the myth and its significance. As for glass itself, I love its glitter and shiny, hard surfaces, especially as a contrast to other materials."

ULRICA HYDMAN-VALLIEN

“Desire, energy, passion – I can love and hate all at the same time. I’m both argumentative and totally committed. With glass, everything is possible. It’s immediate, intense, demanding; never is it just plain old glass. I use it to paint on and tell tales.

I have no rules, and I allow my instinctive feelings to take me wherever they want.”

Ulrica Hydman-Vallien is one of the world’s most famous glass artists. Ulrica Hydman-Vallien paints dramatic, yet humorous designs with a free spirit and unrestrained energy.
